

lain Cheesman

Born in England 1963 Lives and Works in Auckland

lain Cheesman is primarily a maker of objects that link sculpture with painting, language and drawing. There is often an underlying sense of humour within his work. This is a medium of communication that delivers more than an initial reaction, where there is often a slow defuse of more serious concerns. The materials he uses are diverse and vary between bodies of work. A commonality of his artworks is that they are made by hand and the mark of the handmade is apparent.
